

FROM THE PRINCIPAL'S DESK

"So quiet and subtle is the beauty of December that escapes the notice of many people their whole lives through."

Yes, the last month of the year is here and knocking on the door is the New Year filled with renewed zeal and enthusiasm.

The Annual Concerts of the Pre-Primary, the Primary and the Secondary sections were the highlights of this term teamed with the pre-board examinations for the students of classes X and XII . Here's wishing them all the very best in their forthcoming board examinations and wishing each one of you a very Happy New Year to come!

FROM THE EDITOR'S DESK

As these chilly and cold months get us scrambling for our sweaters and overalls, times like these call for the warm embrace of friendship and solidarity, and the bright embers of goodwill, perseverance, and determination. We must push through all that is arduous, no matter how daunting it may seem. With these spirits, we can achieve our academic endeavors and crush all that stands in our way of reaching unmatched excellence. It is on this motivational note that we wish you all a very happy month ahead and hope that you all finish your academic session on as high of a note as possible!

Events: Pre Primary

Chocolate Day

A memorable day for our little ones to rejoice over their favourite food that never fails to fulfil cravings!

fitness Day

Our Pre-Primary students altogether made for an invincible collective force as they all exercised in unison, spreading forth the theme of positivity in fitness!

Christmas!

The merry and festive spirit of Christmas was omnipresent among our Pre-Primary students as seen in their fabulously made decorations!

Events: Pre Primary

fruit Day

The little ones collectively embraced the sweet, healthy and diverse world of fruits - the best way to imbibe healthy food habits!

Grapes Day

Our children revelled in the sweet and addictive glory of grapes, eagerly speaking of these tiny green and purple bombshells of nutrition!

Painting Day

A fabulous collective burst of colours and strokes was unleashed onto the canvas as our children explored their wildest of imaginations on Painting Day!

Annual Concert

A heartfelt and passionate ode to preserving our planet for the generations to come, the Annual Concert flawlessly performed by our Pre-Primary students was a marvellous success!

Events: Primary

field Trip

Our students got the chance to stretch their legs and pay a visit to the local Decathlon sports store! Filled to the brim with top-of-the-line sports equipment and gear of all kinds, our students were entranced and mesmerized with the gear that they dream and yearn of wielding on the field.

Annual Concert

A splendid evening adorned with incredible musical arrangements and spectacular dance and acting performances, our Primary students made possible the show of a lifetime while simultaneously pushing forward the crucial message of environmental awareness and conservation .

Events: Secondary

Annual Concert

The Annual Function was a passionately performed re-enactment of the story of Amrapali, the first female monk to join Buddha's sect. Being supported by immaculate dance and vocal performances coupled with marvellous acting, this truly remained a night to remember!

Common Events

Republic Day

This 74th Republic Day, the air was filled with a sombre yet heartfelt sense of national pride for the cultural identity of our nation, as the celebration was serenaded with soulful dance and vocal performances and a glorious hoisting of the *Tiranga* high, mighty and proud.

Know your Teacher!

Dr. Kavita Ranka

Q1. What is it about chemistry that enthralled you & made you decide to seriously pursue teaching it as a profession?

A. What I love about chemistry is how much of it exists in our daily life. It is intertwined with everything around us, and everything we use. It is this aspect of the subject that I really wanted to make known to students and to remove the usual theory overloaded pre-conception that is popular among them.

I also believe that engaging more students in chemistry is crucial for making future leaders and trailblazers in the field of science to push forward sustainable development of our country.

Hinode Department of

Q2. What are your most favourite aspects of tutoring students this subject?

A. I am always passionate about teaching my subject and have been so ever since I tutored lower secondary students mathematics and science during my college days. It is fostering this passion that makes teaching this subject so gratifying. I have always loved building up my students' confidence from the ground up and to see the results when the subject finally clicks with them - be it in high school or in university - is always worth all the effort.
